NOTE.—The figures under the heads Population, (exclusive of those for 1871 and 1881, when a Census was taken) Births, Marriages, Deaths, Schools, and Cultivation, are only approximative. The Registration of Deaths is compulsory; Registration of Births is optional. The figures under the head Schools and Scholars for 1882 do not include Private Schools unaided by Government.

* The increase in Imports and Exports during 1853 is chiefly owing to a larger importation of Specie than usual.

* NOTE – The great difference in value of Exports for 1873, as compared with 1871 and 1872, arises from the average value of coffee during 1873 in the local market previous to shipment being taken at £4 10s. per cwt. for plantation and £4 per cwt. for native, instead of £2 14s. and £2 as heretofore.

The money figures from 1874 have been converted from rupees to pounds sterling at 1s. 10½d to the rupee. Prior to 1874 at 2s. to the rupee.

Provided that the above rates shall include all fees leviable for servic of process under clauses 14 and 16 of Ordinance No. 4 of 1867, which fees shall no longer be leviable for Courts of Requests, and any returns thereof as regards such Courts shall not be required, anything in Ordinance No. 4 of 1867 to the contrary notwithstanding.	
Poundage shall be recovered at the rate of one per centum on all moneys levied in execution, either by sale or by payment by the debtor to the Fiscal or his deputy; although the creditor becomes purchaser of the property sold in execution, and obtains credit for the purchase money in reduction of the amount of the writ. The order for credit or for payment should be written on a stamp or stamps answering in value to such one per centum. Provided that five cents shall be payable for any fractional part of one per centum less than 5 cents.	
Provided also that no Government Officer suing or being sued, or intervening in his official capacity, shall be required to use any stamps in any Court of Requests. But if judgment for costs shall be given in favour of such Government Officer, the value of such stamps as would have been used by him if he had not been allowed to proceed without using stamps, or the value of such part thereof as shall be decreed by the said judgment, shall be paid by the party against whom such judgment shall have been given, to the Commissioner of Stamps, or to the Clerk of the Court in which the case shall have been instituted, for and on behalf of such Commissioner; and in failure of such payment the said Court shall proceed to recover the same in the manner directed for District Courts, in section 62 of Ordinance No. 23 of 1871, in regard to pauper suits.	
And no summons, subpœna, warrant of arrest, or in execution, nor any other citation or writ whatsoever, which has once been issued out of the Court and returned by the officer to whom it was directed, shall on any pretext whatever be re-issued, unless any such process has been returned not served or executed by reason that the party could not be found, or had left the jurisdiction of the Court, or by reason that no property of the debtor could be found, or none sufficient to satisfy the exigency of any writ of execution could be found. Provided further that in respect of any subpœna or subpœnas, the same may be re-issued at the discretion of the Court, although served, in case a cause before any District Court be postponed at the instance of the Court.	
Provided also that in appeals to the Supreme Court the appellant shall furnish to the Clerk of the Court with the petition of appeal the proper stamp for the decree or order of the Supreme Court, and the certificate in appeal which may be required for such appeal.	
No party shall be allowed to take any proceedings on or by virtue of any judgment or decree without first taking a copy thereof.	
Exemption.	
All affidavits or affirmations for verifying service of process; all warrants of attachment issued by the Court at its own instance.	
IN THE POLICE COURTS.

COLONIAL STEAMER "SERENDIB."

SCHEDULES OF FARES AND FREIGHTS TO BE CHARGED.—*Government Notices dated 21st November, 1871, and 2nd August, 1872.*

STEAM COMMUNICATION BETWEEN COLOMBO AND THE PORTS OF PAUMBEN, KAYTS OR JAFFNA, POINT PEDRO, TRINCOMALEE, BATTICALOA, HAMBANTOTA, AND GALLE, BY THE COLONIAL STEAMER.

REGULATIONS RELATING TO PASSENGERS.

Cabin Passengers.—The passage rates include messing, bedding, and linen only; wine, beer, and spirits may be obtained on board for payment. Should the vessel be detained in port beyond 48 hours after anchoring, and passengers mess on board, they will be liable to an extra charge of five rupees per day after the expiration of that time.

Passage Tickets.—These, both cabin and deck, can only be obtained from the steamer's Agents on payment of the fare. No passenger will be received on board without a ticket. Children under five years of age allowed free, but charged Rs. 2·00 per day for messing, except infants of one year; children over 5 years and under 10, one-half rates, to include messing. Servants of cabin passengers, one-half deck passage rates, and 75 cents per day for messing.

Baggage.—5 cwt., or 15 cubic feet measurement, allowed to each person free; children liable to charge for passage, half that quantity; all in excess, and furniture accompanying passengers, to be charged freight, as per agreement with Agent at the port of shipment.

Deck Passengers.—The passage rates include water and deck accommodation only, which is restricted to that portion of the vessel before the funnel. Children under 5 years, free; over 5 and under 10, half the full rate.

Baggage.—One cwt., or 5 cubic feet measurement, not being merchandise, allowed to each person free. Children liable to charge for passage, half that quantity; all in excess to be charged as freight.

NOTE.—Gangs of *bona fide* immigrant coolies will be carried to and from Paumben and Colombo as deck passengers on the Steamer's trips round the Island, at the following rates:—viz., adults, 1 rupee and 50 cents each; children, between 5 and 10 years, 75 cents; under 5 years, free.

REGULATIONS RELATING TO CARGO.

Reception on board.—No cargo will be received on board without a shipping order from the Agent at the port of shipment. All packages must have their destination marked in English, and they must be sufficiently packed and in good order, otherwise they will not be received on board.

Delivery.—The Chief Officer's receipt for goods on board, endorsed by the Agent for freight paid, will be recognised in lieu of Bills of Lading; and no goods will be delivered without the production of such receipt so endorsed. The Chief Officer may deliver goods into boats specially sent by the Agent for that purpose, in which case the Agent will be careful not to deliver the goods without the production of the aforesaid receipt.

RATES TO BE CHARGED FOR HIRE OF STEAMER ON SPECIAL OCCASIONS.

Conveyance of Troops.—On the Steamer's ordinary trips round the Island a limited number of Troops, not exceeding 25, including women and children, may be conveyed on the same terms and regulations as Deck Passengers, and Officers on the same terms as Cabin passengers.

Should the Steamer be required specially for Troops, and other duties will admit of this, the following rates will be charged :—

From Colombo to Trincomalee and back, including 24 hours' detention at Trincomalee, Rs. 1,500 for the trip one way, or Rs. 2,500 for the voyage there and back.

From Colombo to Galle and back, including 24 hours' detention at Galle, Rs. 1,200 for the trip, or Rs. 800 for the trip one way.

These rates include water and fuel, and the whole of the vessel's hold and 'tween decks for the use of the Troops.

Officers proceeding by the Steamer on these occasions will be charged the ordinary Cabin fare extra.

Conveyance of Supreme Court.—The Officers comprising the Court will be conveyed at the usual rates of passage; and an extra charge of Rs. 200 for each day's detention of Steamer in ports where the Court may be held.

Pearl Fishery Duties.—When employed on these duties, Rs. 200 per day and the cost of coals consumed will be charged.

Other occasions.—If allowed to be employed on any other special occasion, the charge will be Rs. 500 per day and the cost of quantity of coals consumed.

NOTE.—When employed on special occasions, any available accommodation, after the wants of the service on which the Steamer for the time being is employed are supplied, will be otherwise made use of if required.

THE AGENTS OF THE STEAMER ARE :—

The MASTER ATTENDANT, Colombo.
The MASTER ATTENDANT, Galle.
The SUB-COLLECTOR, Hambantota.
Mr. A. KOCH, Sub-Collector, Batticaloa.
Mr. F. E. GIBSON, Trincomalee.
Mr. P. A. MARTENSZ, of Customs, Point Pedro.
Mr. W. G. HAINES, Assistant Collector of Customs, Jaffna.
Mr. J. G. REIDY, Supdt. of Immigration, Paumben.

INTEREST.

On all debts [illegible]rnment - 9 per cent. per annum.
On Suitors' money and Intestate Estates - one-third of the Inte[illegible]lected by the Loan Board.
On amounts belonging to the Weeskamer and Boedelkamer funds - 3 per cent. per annum.
On Local Investments—Fixed deposits, 4 per cent.; current deposits at the usual rate.

CUSTOMS.

These duties are collected under and agreeably to the directions of the Ordinances No. 17 of 1869, No. 14 of 1871, No. 39 of 1884, and No. 8 of 1885, by which all former laws relating to Customs are repealed, consolidated, and amended; Ordinance No. 22 of 1873 and Proclamation of 10th November, 1877; under Ordinance No. 22 of 1877, by which a royalty of 25 cents is levied on every cwt. of plumbago exported beyond seas; and under Ordinance No. 13 of 1869, and Proclamation dated 7th January, 1882, by which a royalty of Rs. 100 is levied on each Elephant shipped from this Island to any place beyond the seas. Warehouse Rent charged upon goods placed in the Queen's Warehouses is levied by Government Notices dated 20th October, 1876, and 6th July, 1877, under authority of the 13th clause of the Ordinance No. 17 of 1869. Export duties are collected under Ordinance No. 9 of 1882.

PORT AND HARBOUR DUES.

Port Dues are levied under the Ordinances No. 17 of 1869 and No. 14 of 1871. The rates are eight cents per ton inwards, and eight cents per ton outwards on loaded vessels. Under this head are also brought to account receipts for the hire of Government boats and moorings, and half pilotage fees recovered under the Ordinance No. 6 of 1865. For Colombo harbour a special tariff was published under Proclamations dated 7th November, 1882, and 6th May, 1885.

LAND SALES.

Under this head are included the receipts derived from the sale of Crown lands and cinnamon gardens, under the rules laid down in the Minutes of the Governor of the 14th January, 1857, and 14th May, 1875, and the half-improved value of land under the provisions of the Ordinance No. 1 of 1840; also the proceeds of sale of paddy lands in the irrigation districts, under the Minutes of 27th February, 1857, and 21st May, 1868, and grants of land under the Minute of 8th August, 1844.

LAND REVENUE.

Rent or Tax on Paddy.

The receipts classed under this head are derived from the rent or tax of one-half, one-third, one-fourth, one-fifth, one-eighth, one-tenth, one-fourteenth, or one-twentieth of the produce, according to the tenure on which the lands are held.

The tax is levied on the authority of immemorial usage, and is particularly recognised by the Proclamations of the 3rd September, 1801, the 22nd April, 1803, and the 21st November, 1818, and the Ordinances No. 14 of 1840 and No. 29 of 1865.

In the Central Province this tax was, till 1826, levied by an annual assessment of the crop of each harvest, and was chiefly collected in kind. In the districts adjacent to the town of Kandy, the assessment

was then commuted with the consent of the proprietors, for the annual payment of a given quantity of grain, which arrangement continued in force till the end of 1830, when that system was further extended by giving the proprietors the option of paying the assessment, either at a fixed rate of money or in kind, and even of redeeming the tax in perpetuity by payment of the assessment for 20 years. In 1832, the first settlement having expired, a renewal of the commutation assessment was entered into throughout the former commuted Districts.

In the North-Central and North-Western Provinces the renting system alone is adopted. In the Northern Province the average of the renting and commuting systems is nearly equal. In the Eastern Province both systems prevail. Commutation was facilitated by Ordinance No. 11 of 1878, and has been effected all over the Western and Southern Provinces.

Rent or Tax on Fine Grain.

Recognised by the Proclamations of the 3rd September, 1801, and the 22nd April, 1803 (which impose generally a tax of one-tenth on the produce of all high lands, viz., of lands not adapted to the cultivation of paddy), and recognised by the Ordinances Nos. 14 of 1840 and 29 of 1865. In the Western Province this tax is levied in the old Kandyan divisions only according to the tenure on which lands are held, or according to the ancient usages and customs of the country. The proceeds sale of illicit cultivation of fine grain on Crown land are also brought to account under this head.

In the Northern Province the rate of tax is one-fifth for jungle cultivation, and one-tenth for all the others.

In the Kandyan territories, fine grain is exempted from taxation, under the Proclamation of 21st November, 1818.

Rent of Gardens.

This revenue is derived from the produce of Government gardens, either rented or collected in aumani (that is in kind.) In the Central Province the rents derived from small Crown lands, and on reserved Crown lands on sides of public roads which are permitted to be cultivated, are also brought to account under this head.

Land Rents Redeemed, improperly termed "Tythes Redeemed."

A measure adopted in 1813, by Government, under the conviction that cultivators of Crown paddy lands would cultivate them more carefully and with greater advantage to the revenue if subjected to payment of one-tenth only, instead of the one-half or one-fourth. The redemption is effected by the occupier paying ten years' value of the difference between one-tenth and the share hitherto payable, in four instalments. The permission to redeem the rent altogether, which was at one time granted on the application of the owner, has been suspended.

Rent of Lands.

The receipts under this head are collected from the rental of Government lands, leased at will, and a fixed rate per acre on Government lands encroached upon by private parties.

Royalty on Cabook Stones, &c.

A payment of 3 rupees and 75 cents is levied on every 1,000 cabook stones cut from the Government pits in the districts of Colombo and Negombo; of 6 cents per 100 cubic feet of sandstone quarried between Hendala and Pamunugama; and three cents on every cartload of white sand removed from the Maradána cinnamon gardens.

RENTS, EXCLUSIVE OF LANDS.

This head embraces the amount for which the Government farms out the privilege of collecting the tolls leviable at the different roads, bridges, ferries, and canals, and the Lock at St. Sebastian, under the Ordinances Nos. 14 of 1867, 4 of 1868, 18 of 1869, and 2 of 1871.

It also includes the rental paid by public officers for the occupancy of official residences, and also rent of buildings used as markets, coal sheds, ice stores, &c.

LICENSES.

Arrack, Rum, and Toddy.

The exclusive privilege of retailing spirits distilled from the palm tree and arrack, rum, and toddy generally farmed in the several Provinces,—regulated by the Ordinances Nos. 10 of 1844 and 5 of 1881.

Duty on Arrack and Rum Stills.

Under this head are brought to account sums received for licenses issued to distillers of, and wholesale dealers in, arrack and rum, under the Ordinances Nos. 10 of 1844 and 5 of 1881. The license is granted by the Government Agents on the payment of the sum of 100 rupees, and is in force from the date of such grant until the end of the year.

*Licenses to retail Beer or Porter and Intoxicating Liquors.**

These licenses are issued for the retail of beer or porter and intoxicating liquors, with the exception of arrack and rum, under the Ordinance No. 23 of 1877. The license is granted by the Government Agents on the payment of the sum of Rs. 10 to sell beer or porter only, Rs. 30 to sell intoxicating liquor generally, not to be consumed on the premises, Rs. 100 to sell intoxicating liquor generally, to be consumed on the premises, and Rs. 250 to keep an hotel, and is in force from the date of such grant until the end of the year. The collection under this head within towns has been transferred to the Municipalities and Local Boards created under the Ordinances No. 17 of 1865 and 7 of 1876.

* Under the provisions of the Ordinances No. 17 of 1865 and No. 7 of 1876 the collections within Municipal Towns and in towns in which Local Boards of Health and Improvement have been established, have been transferred to the Municipalities and Local Boards.

Chanks.

Under this head are brought to account sums received in consideration of permission granted to individuals to dig for dead chanks in Crown lands, being equivalent to one-fifth of the value of the shells procured. This branch of revenue, which is peculiar to the Northern Province, is protected by the Ordinance No. 4 of 1842.

Chank Fishery.

Under this head are brought to account sums received for permission granted for the employment of boats and divers in the chank fishery. The Ordinance No. 5 of 1842 provides that no fishery shall take place but by permission of Government, and the Government has made rules for the granting of such permission on payment of these fees.

The head "Licenses" also embraces receipts from the following taxes, &c.:—

* Rs. 50 for a license to possess opium; Rs. 200 and Rs. 250 for licenses for selling opium and bhang, by retail and wholesale respectively, in certain towns proclaimed under the Ordinance No. 4 of 1878; Rs. 2·50 for a license for the storage of Petroleum, under Ordinance No. 3 of 1878.

Proceeds of postage stamps sold are also accounted for under this head.

TAXES.‡

Under this head is brought to account an assessment tax, generally 5 per cent. on the annual value of all landed property within towns, forts, and gravets. It is levied under the provisions of the Ordinances No. 16 of 1865, No. 19 of 1871, No. 3 of 1875, and No. 7 of 1880.—See pages 34 and 35.

POSTAGE.

Postage on letters, &c., regulated by the Ordinances No. 2 of 1878 and No. 40 of 1884.

Proceeds of postage stamps sold are accounted under the head stamps, under the Ordinances Nos. 27 of 1865, 10 of 1869, and 13 of 1871.

FINES AND FORFEITURES.§

This head includes the amount of fines levied and the proceeds of articles confiscated to the use of the Crown by orders of the Courts of Judicature, as also occasionally sums realised by the seizure of crops grown on Crown lands without permission, and confiscated timber removed without license.

SALE OF GOVERNMENT PROPERTY.‖

Under this head the following receipts are brought to account:—

1. The proceeds of all salt sold in the manufacturing Districts in the Northern, Eastern, North-Western, and Southern Provinces, under the Ordinances No. 3 of 1836, No. 1 of 1838, No. 26 of 1852, and No. 2 of 1864. By Ordinance No. 14 of 1857, the importation of salt into this Island is allowed on payment of a duty of Rs. 2·13 the cwt. The Ordinance No. 17 of 1840 makes further provision for the protection of this source of revenue. By the Ordinance No. 5 of 1856, jurisdiction is given to Police Courts over offences punishable under the Ordinances above referred to, and the law relating to this branch of revenue is also amended in certain respects.

The salt revenue is a Government monopoly; but in the Jaffna District of the Northern Province the monopoly is occasionally rented out annually; the renter who purchases the monopoly of the retail sale being supplied by Government with salt at 40 cents per cwt., which he is allowed to retail to the public at Rs. 2·24 per cwt. Salt is also sold for export to released Districts and for export beyond sea, at Rs. 5·25 per ton.

In all the other salt manufacturing Districts, salt is sold exclusively by Government to retailers and wholesale dealers, at Rs. 2·36 per cwt.¶

But in no case shall a larger fee than Rs. 20 be charged for examinations taken in

	Rs.	cts.
respect to the same ship, and same occurrence, whatever may be the number of deponents.		
(*b*) For every report required from the Receiver for the Agents or Secretary for Lloyds	10	50
(*c*) Copies of depositions made before Receivers may be furnished by them to the parties applying for them at the following charges:—		
For each copy of deposition of 100 words or under - -	1	0
For every 100 words or part of 100 words over and above the first 100, an additional - - - -	0	25
(*d*) For wreck or vessels taken by the Receiver into his custody, a commission of 5 per cent. upon the value thereof; but the amount of such commission shall in no case exceed Rs. 500; and		
(*e*) If the services rendered by the Receiver or his Assistants be at a distance from their immediate stations, travelling allowances in addition, according to the rates sanctioned by Minute of 21st June, 1858.		
(*f*) When services are rendered in respect of a vessel or boat in distress not being wreck, or in respect of the cargo or articles belonging thereto, for every day the Receiver is employed in the service - - -	15	0
(*g*) Fees and expenses exclusively incurred in instituting the examination required by clause 14 of the said Ordinance, and when no services are rendered beyond taking such depositions, shall not be considered as a charge on the ship, but will be paid by Government.		

HIS EXCELLENCY is also pleased, on the recommendation of the Superintendent of Wrecks, to approve of the following Regulations for the guidance of Receivers:—

1.—*Receivers will bear in mind that the principal object of the Ordinance No. 5 of* 1861, *and of their appointment thereunder, is*—

1st—The rendering of assistance.
2nd—The protection and preservation of wrecked property, and the restoration thereof to the owners.
3rd—The protection of the Customs revenue.
4th—The settlement of salvage claims.

The provisions of clauses 3, 7, 8, 14, 16, 17, 21 to 27, and 31 to 32, give them full powers to carry out these objects.

2.—*Inquiries into Wrecks and Casualties at Sea, clause* 3; *Ships in distress, clause* 14.

In making these inquiries the officer will remember that he is exercising a highly important function, and that his report may be the foundation of proceedings deeply affecting the interests of individuals; he must therefore most carefully endeavour to arrive at the truth, and should especially direct his attention whether the casualty happened from avoidable or unavoidable causes,—particularly as to the (*a*) unseaworthiness or insufficient equipment of the ship; (*b*) insufficient or improper manning; (*c*) improper loading, overloading, bad stowage; (*d*) misconduct, incompetency, or neglect of master, officers, or crew; (*e*) ignorance of lights, or navigation of the coast; (*f*) neglect of heaving the lead.

3.—*Custody of wrecked property, clauses* 9, 16, 17, *and* 18.

Clause 9.—This clause refers to property recovered from a ship wrecked or in distress at the time of wreck or casualty, and the object of its provision is to secure the property in the confusion which attends a shipwreck; to protect the Customs' revenue; to provide for payment of fees, expenses, and salvage claims. But if the master, or if the owner, or any duly appointed Agent of owner or master is in possession, and is able to take and keep custody of the property, and if all claims are paid or provided for by proper security, the Receiver need not take possession or detain the property, but he will offer his services, and render such assistance as may be required.

Clauses 16 and 17 refer to wreck saved or taken possession of at any other time.

Clause 18.—This notice should be given when the wreck in custody exceeds the value of Rs. 50, and the particulars of all articles taken possession of by the Receiver will be entered in the Report Book No. 1, per form annexed.

4.—*Wreck arrested by order of Court of Law.*

When a derelict ship in the custody of a Receiver, or other wrecked property detained by the Receiver for the payment of salvage, is arrested by virtue of a Warrant or other instrument of Court, the Receiver should not give up the claims to fees and to any expenses he may have incurred, but should send a copy of his account to the person taking such charge, giving notice of his lien, and that the property must not be restored until the amount of his claims be paid. A copy of the account and notice should also be forwarded to the Registrar or Secretary of the Court issuing the warrant; and in the event of property being restored without payment of Receiver's claims, he should report the circumstances to the Superintendent of Wrecks, and should resume possession of the property until his claims are satisfied.

5.—*Sale of Wreck Property, clauses* 19, 27, *and* 28.

Clause 19 provides for the disposal of wreck of small value, either derelict, flotsam, or jetsam, so constantly found on the Coasts of this Island; and should the Receiver find it necessary to sell property under the provisions of clause 27, he will, if the property be claimed, endeavour in doing so, if possible to act in concert with the owners and insurers.

All sales of importance and value should be advertised in the *Gazette* and local papers; and notice of intended sale affixed at the Custom House of the Port. The account of wreck sold is to be made in form No. 3 (annexed).

6.—*Salvage, clauses* 21 to 26.

The decisions of questions as to salvage, if the parties cannot agree, must be determined by the Court

having jurisdiction in that behalf; but the Receiver has important duties in endeavouring to settle salvage claims amicably, in providing for what may be due by detaining the property saved; in releasing the property on proper security being given; in selling the property when necessary to satisfy the claim of salvors; and in apportioning money paid in satisfaction of such claims; and the Receiver will recollect that, whilst providing for the claims of bonâ fide salvors, he must, as far as he can, protect property against vexatious and improper claims.

The essentials of salvage service are—(*a*) The degree of danger from which the lives or property are rescued; (*b*) the value of the property saved; (*c*) the risk incurred by the salvors; (*d*) the value of any property by the use of which the services are rendered, and the danger it was exposed to; (*e*) the skill shown in rendering the service; (*f*) the time and labour occupied.

The salvage should be in proportion to the use of these essentials; but where scarcely any, or only the last exist, and the same is little more than mere work or labour, it should be rewarded accordingly.

The amount of reward should not however increase in direct proportion to the value of the property; and as a general rule it may be borne in mind that the Courts of Admiralty very seldom, if ever, give more than one-half the value of the property saved.

7.—*With a view to encourage salvors and finders of unclaimed wreck and drift goods sold and taken charge of by Receivers under provisions of clauses* 19 *and* 28, *the following rewards may be given, viz.:*—

Upon the net value of property of Rs. 25 or under (two-thirds) -	$\frac{2}{3}$
When it exceeds Rs. 25 and under Rs. 50 (one-half) - -	$\frac{1}{2}$
When of Rs. 50 and above (one-third) - - -	$\frac{1}{3}$

8.—*Delivery of Property to Owners.*

On payment of all sums due for salvage, duties, fees, and expenses, the Receiver will deliver up all property which comes into his possession or custody, and the proceeds of such parts of it as may have been sold, to any person who proves himself to the satisfaction of the Receiver to be the owner of such property, or agent duly appointed by him, taking receipts for the same. The owner of the ship being responsible for the cargo, and the master of the ship having, as the servant of the owner, the legal custody thereof, the Receiver will treat the master, when present, as the agent of the owner, not only of the ship, but also of the cargo; unless and until it is clearly proved that the owners of either have put an end to such agency.

9.—*Accounts and Returns.*

The Receiver will keep a Report Book according to form No. 1, in which he will enter the particulars of every description of article taken into his custody. The reference numbers are to commence with No. 1 on 1st January of each year.

The reporting of goods taken possession of for the Receiver should be made according to form No. 2, and the sale account per form No 3.

The Quarterly Returns, as per form No. 4, are to be forwarded through the Superintendent of Wrecks; and the net proceeds of all wreck the property of Government as unclaimed, is to be paid into the General Treasury, quarterly, the Treasurer being required to receive such moneys on account of wrecks.

By His Excellency's command,

Colonial Secretary's Office,
Colombo, 6th February, 1862.

W. C. Gibson,

THE REVENUE OF 1884 AND 1885.

Cause of Increase or Decrease.

Arrears of Revenue.—The Decrease in the receipts under this head for 1885, as compared with 1884, is Rs. 89,861·16, and this decrease is due to the fact that the amount of recoverable arrears outstanding at the commencement of 1885 was smaller than it was at the commencement of 1884.

Customs.—The increase under the head "Imports" is due partly to the increased rates of duty levied under Ordinance No. 39 of 1884, and partly to a larger importation of Grain. An increase in the exportation of Plumbago has also contributed to swell the revenue under tha thead. The net increase under "Customs" is Rs. 56,773·39.

Port and Harbour Dues.—The net increase under this head is Rs. 28,891·84, and is due to the increase in number and tonnage of vessels which called at the Port of Colombo during the year.

Land Sales.—The falling off in the receipts under this head is due to a smaller extent of land having be ensold in 1885 than in the preceding year.

Land Revenue.—The increase in the revenue from Paddy and Fine Grain is due to good crops and prompt recoveries.

Rents, exclusive of Land.—The rents for 1885 realised a smaller return than in the preceding year, and hence the decrease under this head.

Licenses.—The decrease under Arrack is due to the lower prices at which the rent was sold.

There was a smaller demand for licenses, owing to diminished consumption.

The increase is only apparent. A sum of Rs. 14,336 due for 1884 is locked up in the Oriental Bank Corporation, and when this is added to the receipts of 1884, the receipts for the two years will be nearly balanced.

This increase is due to greater activity in the trade.

Stamps.—In 1884 the sums realised from stamps were classified partly under this head and partly under the heading "Postal," the aggregate amount being Rs. 936,793·12. The amount realised this year is Rs. 1,029,716·38½ or Rs. 92,923·26½ in excess of the previous year. The excess is the result of the increased Stamp duties levied under Ordinance No. 43 of 1884. The reduction in composition duty is owing to the withdrawal of Bank notes from circulation.

Taxes.—Prompt recoveries have apparently caused the increased collection under this head.

Postal.—The receipts under Postage Stamps in 1885 will appear included under General Stamps.

This increase calls for no special explanation.

Fines and Forfeitures.—The increase of Court fines is apparently due to greater facilities afforded for the punishment of crime under the Penal Code, and also to a large seizure of stolen cattle in the North-Western Province.

Departmental fines is a casual and fluctuating item of receipt.

Government Vessels.—The Colonial Steamer was under repair during the year, and this accounts for the decrease under this head.

CAUSE OF INCREASE OR DECREASE.

SALE OF GOVERNMENT PROPERTY.—The only item which appears to call for special notice is the large increase in the revenue derived from Timber. This is due to a steady demand for ebony in the North-Central Province.

REIMBURSEMENTS.—This increase is due to larger exportation of produce on which duty is leviable under the Medical Aid Ordinance.

This is a casual receipt, and depends upon the number of patients liable to stoppages treated in the Hospitals.

The decrease under this sub-head is due to the abolition of Government English-teaching schools in towns.

The increase is caused by the sale of a large number of small allotments of lands, chiefly in the North-Western Province.

Large collections were made in 1884 under this sub-head: the amount of arrears outstanding was therefore comparatively small, hence the decrease for 1885.

The number of prisoners employed on the Harbour Works was reduced as the work approached completion; hence the decrease.

This is a fluctuating item of receipt, and depends on the number of patients treated in Hospitals who are able to refund the expenses incurred on their account.

This increase is owing to arrears of 1884 having been recovered.

MISCELLANEOUS RECEIPTS.—There was no recovery in 1884 on account of deficiency of troops.

Arrears of contribution of pioneers employed in the Straits received during 1885 caused this apparent increase

INTEREST.—The increase under this sub-head is due to the recovery by prosecution of a large amount from Arrack renters of the Central Province of 1878 and 1879.

PEARL FISHERY.—There was no fishery in 1885. The small amount brought to account is the rent of the fishery in the Temblegam Bay, near Trincomalee

RAILWAY RECEIPTS.—The extension of the railway to Nánu-oya, and the increase in the estate requirements and produce conveyed by rail, caused this increase.

EXPENDITURE OF 1884 AND 1885

Cause of Increase or Decrease.
The principal increase is in the Railway Department, due to the extension to Nánu-oya, and to annual increments to employés. The principal decrease is in the Public Instruction Department, due to the abolition of the Normal School and of English-teaching schools in towns. On the whole, there was a net decrease of Rs. 9,955 on Establishments.

	Net Increase—Rs	—		—		293229	76	—	

CAUSE OF INCREASE OR DECREASE.

PENSIONS.—This increase is due to the expansion of the pension list and to the low price of silver.

REVENUE SERVICES.—The decrease is due chiefly to reduction in the quantity of salt collected in the Northern and Southern Provinces.

ADMINISTRATION OF JUSTICE.—In this year a further reduction of expenditure under this head was made, the reduction in the preceding year being Rs. 11,208·22.

CHARITABLE ALLOWANCES.—Increase arising from relief given to sick and distressed villagers in certain districts in the Western, North-Western, Eastern, and Central Provinces.

EDUCATION.—The abolition of the Normal School and of the English-teaching schools in towns accounts for this decrease.

HOSPITALS AND SANITATION.—Increase due to prevalence of fever and small-pox in various parts of the Island and to expenditure on account of the new lunatic asylum.

PRISON SERVICES.—A larger number of prisoners under confinement in the several jails in the Island swelled the expenditure under this head.

TRANSPORT.—The Decrease is chiefly on the votes allowed to His Excellency the Governor, the Colonial Treasurer, and the Government Agent of the Central Province. Part of the savings so caused was absorbed by the larger expenditure in the Survey Department.

CONVEYANCE OF MAILS AND POSTAL-TELEGRAPH SERVICE.—The increase is attributable to payment made on account of loss on sea conveyance of Mails and to payment to Indian Government of the first instalment on account of Telegraph Cable.

WORKS AND BUILDINGS.—Increase due to expenditure on the lunatic asylum, to the repairs and alterations of the Queen's Cottage, Nuwara Eliya, to the restoration of the Karaiur wall damaged by cyclones, and to repairs to buildings generally, for which purpose a larger vote was allowed than in the preceding year.

ROADS, STREETS, AND BRIDGES.—Decrease chiefly due to the new mode of road maintenance adopted this year.

MISCELLANEOUS SERVICES.—The cost of currency notes, of the survey in connection with the Great Survey of India, and the depreciation in the value of silver, chiefly caused this large increase.

INTEREST.—Increase caused by the depreciation of silver and by payment of interest to the Widows' and Orphans' Pension Fund.

COLONIAL STORE.—Decrease due to reduction of expenditure on the votes allowed for maintenance of the Queen's House Colombo and Pavilion Kandy.

CONTRIBUTION TOWARDS MILITARY EXPENDITURE.—Decrease due to reduction of the annual contribution.

GOVERNMENT VESSELS.—Increase due to repairs effected to the Colonial Steamer in Bombay.

REFUND OF DUTIES, DRAWBACKS, ETC.—These are fluctuating items of expenditure.

LANDS TAKEN FOR GOVERNMENT PURPOSES. do. do.

IMMIGRATION.—Increase in the number of immigrant labourers from Southern India is probably the cause of this increased expenditure.

RAILWAY SERVICES.—Increase partly due to extension of railway to Nánu-oya, and partly to the payment to sinking fund, which commenced in 1885, and partly to depreciation in value of silver.

EXCHANGE.—Increase due to loss on family remittances and on other payments in England, owing to the low price of silver.

AND ACTUAL REVENUE FOR 1885.

Causes of Excess or Deficiency.

1. Arrears of Revenue.—Over-estimated.
2. Customs.—Over-estimated. The increase expected from higher duties authorised by Ordinance 39 of 1884 has not been apparently fully realised. To a considerable extent this may be accounted for by sufficient allowance not having been made for the entry for home consumption at the close of 1884 by holders of goods in Bond of articles on which an increase of import duty was leviable from 1st January, 1885.
3. Port and Harbour Dues.—Under-estimated. The increase on tonnage in 1884 was larger than anticipated.
4. Land Sales.—Under-estimated But the actual receipts for 1885 has fallen short of that for 1884.
5. Land Revenue.—Under-estimated. The grain crops for the year were exceptionally good, and the recoveries were prompt.
6. Rents, exclusive of Land } The deficiency is due to general depression and to the consequent falling off in rents.
7. Licenses }
8. Stamps.—This excess must be set off against the deficiency in postage, the collection for the year shown here being the aggregate of receipts, on general and postage stamps, so that really the receipts under this head were over-estimated by Rs. 130,645.
9. Taxes. Under-estimated.
10. Postage.—Under-estimated. See "Stamps." The estimate included value of postage stamps, which is brought to account under the head "Stamps." The amount shown as received under this head represents only cash collection.
11. Fines, Forfeitures, and Fees of Court.—Under-estimated.
12. Government Vessels.—Over-estimated. The estimate has not been fully realised owing to the Government Steamer having been under repairs for some time during the year.
13. Sale of Government Property.—Under estimated. The receipts have exceeded the estimate chiefly under the head "timber," there having been a steady demand therefor in the North-Central Province.
14. Reimbursements.—Under-estimated.
15. Electric Telegraph.—Over-estimated.
16. Miscellaneous Receipts.—Over-estimated. The estimate did not take into account any rebate for deficiency of troops, on which account the sum of Rs. 146,833 was recovered during the year.
17. Interest.—Over-estimated. The large amount recovered as interest on Arrears of Revenue in the Central Province was unexpected.

19. Special Receipts.—This is a casual item of receipts.
20. Railway Receipts.—Over-estimated. The receipts from the extension of the line to Nánu-oya and from increased produce not having been fully realised.

CAUSE OF INCREASE OR DECREASE.

ESTABLISHMENTS.—The net savings in Establishments amount to Rs. 130,246·60. The principal decreases are in the votes taken for the Secretariat, Public Works Department, Customs, Postal and Telegraph, Public Instruction, Medical, and Railway Departments. The excesses over estimated expenditure are chiefly due to over-credits to be surcharged.

CEYLON AGENCY.—RULES OF BUSINESS.

Exchange.

Drafts are issued on *London* on demand, and at usance not exceeding 6 months' sight. *Circular Notes* are also granted for the use of travellers, negotiable in all towns of importance throughout the world.

N.B.—Drafts for sums under £20 are issued *payable on demand only*, and no drafts are so issued for sums under £1, or at 4 months' sight, for sums under £20.

Drafts are also granted on the Agencies and Branches of the Corporation and on their Correspondents in various parts of the world.

Bills payable in Europe, India, China, or Australia, are purchased or remitted for collection.

In all cases of application for drafts, the Christian name of the person to whom the money is to be sent (if a married lady *her own* Christian name, not that of her husband), should be given.

Discount and Loan.

The Corporation discount or make advances on Private Bills or Notes, payable in Ceylon, bearing at least two approved names unconnected in general partnership, and not having more than three months to run; or bearing only one name, if accompanied by the deposit of adequate collateral security in the custody of the Bank.

Fixed Deposits.

Deposits of Rs. 500 or upwards are received for fixed periods upon which interest is allowed. Receipts (not transferable) are granted for such deposits, and the amount can only be drawn at maturity, when interest ceases and the receipt must be then surrendered, duly endorsed. If deposits are intended to be renewed, the receipts, endorsed by the depositor, should, to prevent loss of interest, be sent in to the Corporation at due date.

Current Deposits.

1.—Deposit accounts are not opened for a less sum than Rs. 200.

2.—Cheques will be refused payment when not drawn on forms supplied by the Corporation.

3.—Cheques on which alterations or erasures have been made, and post-dated cheques, will not be paid.

4.—The Corporation will not hold themselves responsible for the payment of cheques which may have been advised as lost or mislaid. They will do all in their power to protect their constituents, but do not guarantee the non-payment of such cheques.

5.—Packets containing money for credit of accounts, sent to the Bank by peons, should be addressed to the Cashier and not to the Manager or Accountant.

6.—Depositors are requested not to make any entries in their pass-books, which should be frequently sent in to be written up. *N.B.*—It would be convenient if depositors would send in their pass-books at the end of each half-year (31st March and 30th September), to be written up and balanced.

7.—The Corporation do not recognise trusts, and accounts are only opened in the individual names of one or more persons.

8.—Cheques on the Chartered Mercantile Bank, Bank of Madras, and National Bank of India, or on any sub-branches, intended for the credit of constituents in the New Oriental Bank Corporation, Limited, should be paid in before 1 P.M. (and before 11·30 P.M. on Saturdays), or they will not be placed to the credit of current accounts till the day following.

9.—Payments intended for credit of Accounts at the Local Agencies of the Corporation should be made before 2 P.M. (and before 12·30 P.M. on Saturdays), or they will not be advised till the day following.

10.—No accounts allowed to be overdrawn except under special arrangement.

11.—A half-yearly fee of Rs. 5 will be charged on all accounts where the balance at any time falls below Rs. 300.

12.—All accounts are balanced half-yearly, viz., on 31st March and 30th September.

JAS. ANDERSON,
Manager.

The English Bushel is equal to 34 Seers, or 1 Parrah and 10 Seers.

Among the Natives the extent of land is defined by the quantity of seed required to sow it, computed at the amunam measure and its sub-divisions. In fertile lands the seed is not strewed so thickly as in poor soil; an amunam of good ground, therefore, will sometimes measure twice as many square feet as an amunam of poor soil.

MANUFACTURES, MINES,

AND

FISHERIES.

RETURN OF MANUFACTURES, MINES, AND FISHERIES.

N.B.—There are few regular manufactories, mills, &c., in Ceylon, those entered in this return being, with the exception of the steam engines, sugar mills, and a few of the oil mills, of a very simple kind.

There is also no regular yard for ship-building in the Island; small sloops and schooners are, however, frequently built and launched locally

* Independent of the cloth manufactured in this Province, large quantities imported from England and the Continent of India are dyed and painted by hand in the Province.

† A large quantity of oil is made for home consumption in a rude manner, without mills, from the cocoanut, from the iluppai tree (*Bassia longifolia*), the margosa oil tree (*Azadirachta indica*), and from the ellu or gingely oil tree (*Sesamum indicum*). There were exported in the year 20 gallons of cocoanut oil. The price of oil per gallon was:—Cocoanut, Rs. 1·50; ilupai, Rs. 2; margosa, Rs. 2; gingely, Rs. 3.

‡ *Manufactured Salt.*—The quantity collected during the year was 3,912 cwt.; the salt was manufactured by solar evaporation. *Self-formed Salt.*—The quantity collected during the year was cwt. 124. The quantity of salt exported for ports beyond seas during the year was 49,200 cwt.

§ The chanks are found buried in mud in the shallow water of the channel between Jaffna and Elephant Pass.

‖ 2,004 cwt. were exported beyond seas. There are no returns of the whole quantity manufactured. It is understood that loaf sugar is made of this jaggery in places under the Madras Presidency.

RETURN OF PRISONS AND PRISONERS.

REPLIES TO THE QUESTIONS, COMPILED FROM THE RETURNS OF THE RESPECTIVE SUPERINTENDENTS.

QUESTION I.

If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night, respectively?

The male prisons at Węlikaḍa and Slave Island and Breakwater Jails are on the separate system, with the exception of two temporary wards at Węlikaḍa, in which 144 prisoners are in association. Prisoners placed in a refractory cell for misconduct are in separation by day as well as by night.

Juvenile offenders are in Colombo and Kandy kept entirely apart from adults both by day and night.

At Slave Island there is a ward for men under medical observation, prior to removal to hospital.

At Kandy there are 282 cells, but, owing to the large number of committals to the prisons of the Island, it has been found necessary to retain the wards for unconvicted and Road Ordinance defaulters.

At Mahara, Kandy, Galle, and Jaffna, there are from 40 to 100 cells at each prison, which are used for locking up the longer-sentenced or indifferently-conducted prisoners, the rest being kept in association wards.

At the other prisons of the Island there are fewer cells, as stated in answer to Query III.

In all prisons males are invariably separated from females, by day as well as by night.

At Węlikaḍa and Galle known prostitutes are kept in a separate yard by day, and at night locked up in separate cells. At Kandy, also, prostitutes are kept apart from other females. All other female convicts are kept in association. Unconvicted prisoners are kept apart from convicted prisoners. Hulftsdorp and Kandy (old) prisons are almost exclusively devoted to the safe custody of unconvicted prisoners, only a few convicts being kept at these prisons to attend to jail services.

In other prisons, the unconvicted are locked up at night separately, as a rule, and every endeavour is made in the absence of divisional yards to keep them apart by day. This is the more easily done as the majority of convicted prisoners in such jails are at work outside for many hours.

At Węlikaḍa, Slave Island, Breakwater, Mahara, and Bogambra, no unconvicted prisoners are, as a rule, ever lodged.

QUESTION II.

If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The males are supervised by male officers of various grades, and the females by matrons, in all jails.

QUESTIONS III. AND IV.

How many cells are there; and how many associated wards? Taking the *average* number of prisoners in jail, how many cubic feet of space are there for each prisoner during the hours of sleep?

QUESTION V.

How are the prisoners classified?

The classification in the Ceylon Prisons is as follows:—

(1) Males, convicted, who are sub-divided as follows:—
- *a* Penal stage, or rigorous hard labour.
- *b* Second stage, or industrial hard labour.
- *c* Third stage, or industrial light labour.
- *d* Road Ordinance defaulters (except those committed under Ordinance No. 31 of 1884, who are treated like other hard labour prisoners).
- *e* Simple imprisonment only.

(2) Females, convicted, in same class as males.

(3) Males, unconvicted, who are sub-divided as follows:—
- *a* Debtors, Crown.
- *b* Debtors, private.
- *c* Persons committed in default of bail, witnesses, &c.
- *d* Do. for further examination by Justice of the Peace.
- *e* Do. for trial by Superior Courts.
- *f* Do. to await sentence and pending appeal.
- *g* Accused persons arrested on warrants in transit to other stations.
- *h* Suspected lunatics committed for medical observation.

[At Colombo, Kandy, Galle, Jaffna, and Batticaloa no lunatics are now committed to prison, proper and separate houses of observation having been provided, which are placed under the control of the Medical Department.]

(4) Females, unconvicted.

These are the recognised divisions for classification, but (except separating males from females) it is not possible in the present stage of the Island prisons to invariably keep these classes distinct from one another, except as stated in reply to Query I.

QUESTION VI.

Is penal labour—that is, labour by treadmill, crank, or shot-drill—in force?

Shot-drill only is in force in all prisons for convicted male prisoners, except Road Ordinance defaulters and offenders committed under provisions of local Ordinances for acts not in themselves otherwise criminal.

QUESTION VII.

If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, &c.; secondly, the length of spells and intervals of rest.

All classes of convicted prisoners in the penal stage, and who are not exempted therefrom by the Medical Officer on account of bodily infirmity, perform shot-drill for two hours in the forenoon and two hours in the afternoon of every weekday.

The Superintendents all report that this rule is followed, except where its relaxation has been authorised.

QUESTION VIII.

What kind of labour, other than penal labour, is in use?

Within the walls of the prison:—
- *a* All jail services, including cooking for convicts.
- *b* Coir-beating, stone-breaking, coir-twisting, and pingo-carrying.
- *c* At Węlikaḍa, carpentering, printing, mat- and brush-making are carried on. All the clothing for the prisons of the Island is made up at this prison, besides the uniform for the officers of the Convict Establishment. There is also a blacksmiths' and tinsmiths' shop at Węlikaḍa.
- *d* At Kandy the convicts are still employed in constructing the new prison buildings, without any aid from free artizans or labourers; also, breaking stone into metal for sale to the Public Works Department, repairs to public buildings, &c.
- *e* At Negombo, brush-, basket-, and broom-making.
- *f* At Hulftsdorp, Hambantoṭa, Nuwara Eliya, Trincomalee the convicts were also employed in improvements, and additions to the buildings in the respective jails.

Convict labour has been extensively employed outside the jails, as will be seen from reply to Query IX.

QUESTION IX.

If the prisoners are employed beyond the walls of the jail, state—

(1) On what kind of work they are so employed?

At *Kandy*, blasting, work at the Kachchéri premises, Government Civil Hospital, cleaning Government grounds, and opening roads on account of the Municipality.

At *Slave Island* and *Breakwater*, the convicts were employed on the Breakwater Works, Bankshall foreshore, Wharf New-road, and also at the Racquet Court, Galle Face Cemetery, and Colonial Secretary's Office yard.

At *Tangalla*, in digging public tanks, putting up a sea-wall, and filling and levelling Government grounds.

At *Mahara*, the convicts were employed in mining, quarrying (all of which work is now exclusively performed by convicts), and breaking a considerable quantity of metal for the Breakwater Works, Public Works Department, and other departments.

At *Galle*, in carting water, opening and repairing roads, and clearing canals in vicinity of the town.

At *Negombo*, in water-carrying and road-making for Local Board.

At *Hambantota*, in collecting salt and other works connected with the Salt Department, and building a new prison at Amblantota

At *Kurunegala*, in opening out minor roads, and other Government works, including that at the tank.

At *Jaffna*, in cleaning Government grounds, water-carrying, &c., building Police barracks, repairing Government buildings, collecting materials for sea-wall, and generally repairing damage done by the two cyclons of 1884.

At *Batticaloa*, in repairing roads and Government buildings.

Besides these special works, the prisoners at outstations are employed in breaking road metal, cleaning and scavenging public latrines and premises, keeping the minor roads in order, planting Government lands with ornamental trees, punkah-pulling, and sundry other small works.

(2) How are they supervised?

On the Breakwater Works and at Mahara by the Assistant Superintendents, Jailers, Deputy Jailers, and the usual staff of party officers.

At Węlikaḍa the parties are visited by the Superintendent, Assistant Superintendent, as well as the Jailer and Deputy Jailers frequently during the day.

At the Węlikaḍa, Slave Island, Breakwater, and Mahara prisons there is the usual staff of overseers, sub-overseers, and guards, besides the superior officers named above.

Every prison has a Jailer, who visits out-door working parties frequently.

At Kandy, Galle, Hambantota, and Jaffna the convicts are supervised by overseers in addition to the ordinary guards.

At other prisons there are only guards or peons, varying according to the number of prisoners—as a rule, one officer to every ten convicts at work.

(3) How many escapes of prisoners, while being employed beyond the jail, have taken place during each of the last three years?

(4) How are the profits of their labour accounted for?

The value of all labour rendered to the Breakwater Works and at Mahara quarry by convicts, is reported to the Auditor-General monthly, and debited to the Breakwater, and the amount recovered on account of metal is also credited to Government.

An account of the labour contributed to each work is kept, from which the reply to Query XI. is compiled, but no money passes, nor is the labour paid for, except where articles manufactured in prisons are sold, when the actual cash realised is paid into the nearest Kachchéri and brought to account as revenue.

QUESTION XIV.

Is there, or arethere, any Chaplain or Chaplains of any, and what, religious persuasions?

There are no PrisonChaplains, but accredited ministers of all persuasions are admitted on application.

QUESTION XV.

Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

At Welikada, Slave Island, Breakwater, Borella Hospital, Hulftsdorp, and Kandy (new) Jails frequent services are held both by Protestant and Roman Catholic Ministers, on Sundays; and religious instruction is also given by Catechists of various denominations regularly. At other prisons such services are held whenever any Minister expresses a wish to do so.

QUESTION XVI.

Are Roman Catholic Priests and Dissenting Ministers allowed free access to prisoners of their own persuasion? And are they apprised when prisoners of their respective persuasions enter the prison?

They are allowed free access, but are not informed when any such prisoners enter the prison, unless at the express wish of a prisoner.

QUESTION XVII.

What provision is made for the education of prisoners?

At Welikada education is confined to the juveniles by paid teachers, for three hours a day on week-days, and three hours on Sundays.

At Slave Island and Breakwater teachers appointed by Government hold school from 10·30 to 1 o'clock every Sunday.

At Negombo teachers appointed by Government hold school from 12 to 2 P.M., on week-days, and on Sundays from 6 A.M. to 10 A.M.

QUESTION XVIII.

On what conditions are remissions of imprisonment granted?

Good conduct, by which is meant industrial good behaviour in matters of discipline. Remissions of terms of imprisonment are granted in proportion to the number of good conduct marks earned by prisoners. Ordinarily, the number of marks a prisoner can earn in a week is nine, and the highest remission a prisoner can obtain by uniform good conduct is two-ninths of the whole term of imprisonment to which he was sentenced, exclusive of the period of three months passed in the penal stage. When suitable work is available, all well-conducted, long-sentenced prisoners, who have been over two years in jail, are eligible to earn one additional mark a week on becoming efficient artizans. After they have earned a further instalment of 1,040 marks such workmen are eligible to earn two marks per week extra, and upon earning another instalment of 1,144 marks they become further eligible to earn three marks extra a week; but the number of these is very limited.

A prisoner sentenced to three months' imprisonment or under is not eligible for any remission of his or her sentence.

QUESTION XIX.

Have Coroners' inquests been held on every occasion of a death in prison during the past year? And what were the verdicts?

Every death is reported to the Police Magistrate or Deputy Coroner, and inquires under chapter XVII. of the Criminal Procedure Code are held on every occasion.

The number of deaths and inquests held have been as follows:—

Jails.	Number of Deaths.*		Number of Inquests held.

QUESTION XX.

(1) What was the sanitary state of the prisons during the year 1885?

Satisfactory.

(2) What were the prevailing diseases?

Dysentery, Fever, and Diarrhœa.

QUESTION XXI.

What are, shortly, the rules as to Diet?

The following is the dietary scale now in force in all prisons :—

	European and Burgher.			Native.			Punishment Diet.		Light Labour Diet.		
Articles.	Full. oz.	Ordinary. oz.	Penal. oz.	Full. oz.	Ordinary. oz.	Penal. oz.	European & Burgher. oz.	Native. oz.	European & Burgher. oz.	Native Adults. oz.	Native Juveniles. oz.

Onions	½	½	0	½	½	0	0	0	0	0	0
Salt and Pepper	¾	¾	¾	¾	¾	¾	0	¾	0	0	0

Curry stuffs.—A sufficient quantity.

The quantities specified are a day's consumption for an adult, and are served out at three meals: one at 5·30 A.M., consisting of bread, coffee, &c.; one at 11 A.M., consisting of one-half of the remaining articles; and the remainder at 5·30 P.M.

In the case of juvenile offenders under sixteen years of age a deduction is made of one ounce of bread, six ounces of rice, and one-fifth of the ration of meat.

Ordinary Full Diet is only given to convicted prisoners who have been actually two years in Jail.

Penal Diet is given to convicted prisoners with sentences of two months and under, during the whole of their term; to other convicted prisoners on two days in each week during the first three months of their sentences.

Ordinary Diet is given to all unconvicted prisoners, and to all convicted not entitled to full, or liable to penal diet.

Punishment Diet is only given when specially ordered as a punishment for breach of prison rules and regulations.

As an exceptional measure, and in view of the more severe labour exacted on the Breakwater Works and Mahara quarry, exceptions are made to the above rules from time to time.

QUESTION II.—*contd.*

(I.) What quantity of Water is available for each patient every day?
What is the source of the Water Supply?
What is the quality of the Water?

(II.) Detail the arrangements as to Baths and Lavatories.

(III.) What is the system of Sewerage; and what the condition of the Privies?

ANSWERS.

Western Province.

Leper Asylum, Hendala.—An ample supply. The Kelani river, in the vicinity of the hospital, and the wells in the hospital grounds. The quality of the water derived from these sources is comparatively pure and good; the drinking water obtained from the wells is, after filtration, free from organic taint; the river water serves the purposes of ablution, &c. There are seven bath-rooms in connection with the hospital, supplied with hot and cold water, according to the requirements of the patients. The dry-earth system is in use in well-constructed latrines, in which metal pails are placed as receptacles for the excreta, and a quantity of dry and sifted earth reserved for the purpose of deodorisation. The latrines admit of the utmost cleanliness and free ventilation, and are constantly white-washed and disinfected. The sewage is removed twice a day, and buried in deep pits at a distance from the hospital.

General Hospital, Colombo.—Unlimited. Four wells. The water is conducted through iron pipes from these wells to two filters, Danchell's and Captain Crease's, erected at a convenient distance from the wards. A patent force-pump is fixed to the principal well. Chatty filters on tripod stands are also used in some wards. Clear, soft, colourless, and free from organic impurities. Arrangements as to baths and lavatories consist of cemented baths built in eight lavatories, to which water is conducted through iron pipes leading from the different wells. There are also appliances for warm baths. The dry-earth system, close-stool buckets are placed for helpless patients, chiefly in the diarrhœa wards. Portable urinals for night use are constructed in the outer verandahs of each ward. The excreta, which have collected in galvanised iron buckets in the latrines, are disinfected with dry-earth and MacDougall's disinfecting powder, and are removed every night by the latrine coolies, and buried at a considerable distance from the hospital. Porcelain chamber pots are used in lieu of the wooden close-stool buckets.

De Soysa Lying-in Hospital, Colombo.—Unlimited. From a well in the compound. Water for drinking purposes is filtered before use in patent earthenware filters. There are two out-houses, one on each side of the wards, and separated from them by corridors and verandahs. In each of these there are dry-earth latrines and bath-rooms, the latter being used as lavatories also. No sewers. Open cemented drains for surface water only. Dry-earth latrines emptied twice a day.

Pánadure.—Unlimited. From a well on the premises. Good. There is a lavatory for males and another for females. Each lavatory has two cemented tubs. Water is conveyed to them by iron pipes, from a cistern near the well. The dry-earth system is in use. The buckets are removed twice daily, and their contents buried far away from the hospital. Each privy contains three zinc buckets.

Kalutara.—The supply is not limited. The water is obtained from two wells in the Hospital premises. The water is soft, clear, and free from organic impurities. There are two baths connected with the male wards, and one with the female ward. These baths are connected with the wards by covered corridors. The baths are cemented, and have communicating pipes with an elevated cistern near the well. Superficial cemented drains, which carry off the flood water into the side drains. The latrines are on the dry-earth system, and are kept clean and free from smell. The night soil is removed to a distance, and buried by the latrine contractors of the Local Board of Health.

Kégalla.—Unlimited. A well in the Medical Officer's quarters adjoining the hospital. Very pure. Patients bathe in a stream close to the hospital. Tubs placed in the bath-rooms are available for warm baths. The sewage of the hospital is buried about a quarter of a mile to leeward of the building. There are no privies, but the dry-earth latrines for male and female patients.

Ratnapura.—An unlimited quantity. Water is obtained from a reservoir fed by a stream, and which is connected with the hospital by tubing. Good and pure. There is a bath-room, which is divided into two compartments, supplied with tubs. Clean and in good order. Drainage fairly satisfactory, no stagnation, clean, and dry.

Negombo.—As much as each patient wants. For cooking and drinking, water is supplied by the contractor, who obtains it from some wells near the hospital. For all other purposes water is obtained from two wells in the hospital premises. The water used for cooking and drinking is of good quality, and is the best that can be obtained in the town. There is one lavatory for females, and three for males. For bathing, water is obtained from the wells in the hospital premises. There are no privies, but there is a latrine for females and three latrines for males, which are all conducted on the dry-earth system. The filth from the latrines is removed as often as necessary every day, and buried after disinfection.

NORTH-WESTERN PROVINCE.

Kurunégala.—An almost unlimited quantity. Two wells on the premises. Good. It is clean, odourless, tasteless soft, and free from organic impurities. It is always filtered before being used for drinking purposes. The filters are the ordinary chatty ones, and are kept in good order. There are two bath-rooms, one for males and one for females. The bath-tubs are filled up by the attendants when required. Warm baths are also given in suitable cases. The bath-room for males is rather exposed. It would be advisable to have it enclosed. The dry-earth system is in use here. It answers admirably. The night soil is removed and, after being mixed with earth and carbolic powder, is buried in pits in a piece of ground some distance from the hospital. The privies are always kept clean and attended to.

Puttalam.—The quantity available is unlimited. A reservoir in the hospital premises, to which water is conveyed by iron pipes from a spring about half a mile away. The water is of good quality. It is, however, filtered for drinking purposes. There are two bath-rooms, one reserved for the male and the other for female patients. Two latrines, on the dry-earth system, and like the bath-rooms are set apart for male and female patients respectively. The excreta are removed and buried in the adjoining jungle twice daily. The latrines are in charge of a cooly, and they are well attended to.

Márawila.—Unlimited. Two wells, situated in the hospital grounds. Pure and wholesome. The drinking water is filtered before use. There are two baths built of cement, one for the male and the other for the female patients. Zinc tubs are set apart for the parangi patients, to serve as baths. The sewerage is buried on land about a quarter of a mile away from the hospital. There are no privies. There are latrines for the male and female patients respectively, conducted on the dry-earth system. The latrines are clean and free from smell.

SOUTHERN PROVINCE.

Galle.—Ample for all purposes. A well in the hospital premises and another in the Medical Officer's quarters supply the water for washing purposes, &c.; for drinking, the supply is drawn from the same source as that used for the troops in the garrison, viz., the village of Labuduwa, about three miles from town. The water from the wells on the premises is not sufficiently pure for drinking. It is therefore procured from Labuduwa as stated above. The water is of very good quality and is always carefully filtered in chatty filters. There are bath-rooms with tubs in them for the use of both male and female patients. The dry-earth system has been in use ever since the hospital was occupied, and answers admirably well. All the closets are in good order.

Mátara.—The quantity of water available for each patient daily is unlimited. From a public well in Pallimulla, for drinking purposes only. The water of the well in the premises is made use of for cooking and ablution. Very good, clear, soft, palatable, and free from impurities. There are bath-rooms attached to each latrine, but they are seldom used. The patients prefer bathing in the river. The refuse is carried away by good drains to the bank of the river, and ultimately washed into it. There are no privies; the latrines are on the dry-earth system, the soil cleaned out daily, carted away, and buried in the beach.

Hambantota.—About six gallons for cooking and drinking purposes. A well out of town, sunk at the foot of the sand hills. Good. There is a bath-room, which is only used by patients who are unable to walk, but those who can walk resort to a public well, or to a tank close to the hospital. The latrines are on the dry-earth system. The excreta are removed and buried twice daily in a neighbouring jungle.

Tangalla.—*Ad libitum.* Two wells in the vicinity of the Hospital. Contains °005 parts per million of albuminoid and 17 grains of chlorides per gallon. The drinking water is previous to use boiled and filtered through alternate layers of coarse sand and charcoal, the filtering media being often changed. There is in the hospital premises a bath-room with one tub, out of which the patients bathe, water being daily supplied by prisoners from a well in the vicinity of the hospital. Sewerage is on the dry-earth system. There is adjoining the bath-room a latrine, which is divided into two apartments for the use of male and female patients; there are in the latrine three galvanised buckets, the contents of which, and of the urinal, are removed twice daily by prisoners and buried in the beach, 300 yards away from the hospital.

EASTERN PROVINCE.

Trincomalee.—The quantity is unlimited. From a spring-well in the hospital compound, paved and walled. Light, clear, and properly filtered through charcoal and sand. A bath-room for males and one for females, with a large tub for each, adjoins each latrine. The dry-earth system is in use. The seats are tarred; broken earth always at hand in a box with a wooden spoon, always kept clean. Sewerage buried at a proper distance from the hospital, in the jungle by the sea-side.

Batticaloa.—Ample for all purposes. Wells in the hospital premises generally, excepting in very dry weather, when it is obtained from the one near the Government Agent's residence. Good. There are two separate blocks of buildings, with tubs in them for the use of the male and female patients. There are no privies, but latrines on the dry-earth system for the use of the patients. The contents of the latrine buckets are removed daily, and buried in a plot of ground some distance from the hospital.

NORTHERN PROVINCE.

Mullaittivu.—As much as required in the hospital premises. Two wells in the hospital premises. Brackish, being percolation from the neighbouring tanks, &c., but properly filtered for drinking purposes by a large-sized Lipscombe's filter which is in use. There are two separate permanent buildings—one for each sex. They are provided with

separate spouts from one of the wells to conduct water to the baths. There is no system of sewerage, but there are two permanent latrines with urinals attached to each of the bath-rooms—one for each sex; quite clean and in order.

Vavuṇiya-Viláṅkuḷam.—An ample supply for all purposes. From two wells in the hospital premises. Good in quality. The drinking water is always boiled and filtered before use. Two cemented baths—one for the use of the male and the other for the female patients—filled daily by the hospital attendants. Surface drains. Two permanent latrines, one for each set of patients, are worked on the dry-earth system. The contents are removed daily by the latrine cooly, and buried at a considerable distance from the hospital. Close-stool buckets are used for helpless patients in ward. The latrines are clean and in good order.

Point Pedro.—An unlimited quantity. From two wells in the hospital premises. Clear, colourless, transparent, and free from organic impurities, and it is also considered as one among the best in the district. Water for drinking purposes is filtered through chatty filters after boiling. There are two out-houses, one for male sand one for females, at some distance away from the wards. In each there are cemented dry-earth latrines and bath-rooms separated by a wall, the latter being used as a lavatory also. Dry-earth system is in use in well-constructed cemented latrines, where iron-buckets are kept as receptacles for excreta, which are disinfected every time with a liberal supply of fine and sifted dry earth mixed with a sufficient quantity of McDougall's disinfecting powder, and removed every day by a latrine cooly, and buried in deep pits at a considerable distance away from the hospital premises. The privies admit of scrupulous cleanliness and free ventilation, and are always in a pure and satisfactory state.

Central Province.

Civil Hospitals.

Kandy.—Unlimited. Water is supplied by the Municipality. Good. The water is filtered before being used. One large bath-room for the native male wards, and another for the female patients. There are also two others, one of which is used by the nurses and the other by European patients. There is a main sewer under ground. The privies are all on the dry-earth system, the contents of the boxes being daily removed out of the hospital grounds.

Gampola.—An ample quantity of water is available for each patient every day. A well in the hospital premises. Very satisfactory. There are six bath-rooms, four for males and two for females; each room is provided with a large bathing tub. The water for bathing is obtained from a well in the hospital premises. There are three latrines, which are conducted on the dry-earth system; the excreta are removed twice a day and are buried at some distance from the hospital.

Badulla.—Unlimited. Katupelella spring. Found pure and good on analysis, and perfectly fit for use. Two baths, one for males and the other for females. The dry-earth system is effectually carried out. There are two latrines, one for males with six seats, and the other for females with four seats. The contents of latrine boxes are removed every morning to a distance of about 100 yards from the hospital premises, for burial.

Mátalé.—An almost unlimited quantity. A spring about a mile from the town. The water is conveyed to the hospital through pipes, and is the same as that with which the town is supplied. It is hard, and sufficiently pure for drinking purposes. It is always filtered before use. There are five bath-rooms attached to the hospital—three for males and two for females. They are situated at each end of the building, and are quite distinct from the wards. There are covered passages leading to them. The bath tubs are filled by coolies, and are cleaned immediately after use. The dry-earth system of conservancy is in use. The night-soil is removed and buried in pits at a good distance from the hospital. The system answers admirably. The dry-earth latrines are in a very satisfactory condition. They are always kept clean, and are frequently white-washed. The floors and lower portions of the walls are tarred.

Nuwara Eliya.—The quantity of water available for each patient is unlimited. The water supply is derived from a stream that flows past the hospital and comes direct from a water-fall behind the hospital grounds. It is good and wholesome. The drinking water is carried by means of pipes from a part of the stream above the hospital premises. It is also filtered through charcoal. The filters are in good order. There are separate bath-rooms for males and females. The water from the stream close by is carried to them. In the male bath-room there is a copper boiler for the preparation of hot water. There are separate latrines for males and females; both are conducted on the dry-earth system. A special attendant is employed to look after them and bury the excreta, daily, at some distance away. They are in good order.

District Hospitals.

Haputalé.—Unlimited. Water is obtained from a ravine which is about 300 yards distant from the hospital. The flow is perennial and the supply ample. Soft, and of tolerably good quality. The water used for drinking and culinary purposes is filtered through chatty filters. There is one bath room for males and females. The privies are on the dry-earth system, and are daily cleaned, the contents being emptied out and buried in pits sunk deep in the hospital premises far away from the wards.

Dikoya.—An unlimited quantity. From a stream of water. Pure and free from all chance of pollution. There are two bath-rooms, one for males and the other for females. Each bath-room is provided with a wooden tub, which is filled up with water when required. Flushing the drains daily with water, and dry-earth system in latrines, the excreta being removed at regular intervals to a distance from the hospital grounds. The privies are clean and in good order.

Lindula.—The water being obtained from two perennial springs there is an unlimited supply for drinking, ablution, and cooking of the inmates. From two springs. The water being from the granite and metamorphic formation is naturally pure. It is clear, sparkling, odourless, palatable, and wholesome, and believed to contain little of the ordinary saline constituents found in spring waters. None. Some patients bathe in the river which runs hard by the hospital, others in tubs. The dry-earth latrine is used, the night soil being removed and buried deep in the earth away from the hospital.

Uḍa Pussellâwa.—Ad libitum. From a stream running by the hospital. Clean and pure. Water for drinking and cooking purposes filtered. The water from the stream flows into a tub, and the patients avail themselves of a bath whenever necessary. A latrine on the dry-earth system. The excreta are buried far away from the hospital.

Keḷébokka.—Unlimited. From a spout close to the hospital. Pure and wholesome. There is a bath-room next to the kitchen; it is provided with a tub which is filled by a spout close to the hospital. Warm baths are also available. Sewage is buried about 150 yards off from the hospital. There are no privies. There is a latrine, which is carried out on the dry-earth system.

Maḍulsima.—Never-failing. Conducted from a streamlet in the adjoining jungle by a channel. Good, always filtered before use. There is a small bath-room provided with tubs. No latrines; no privies.
